*Theme: Return on Modelling Effort*

For the fourth time, the Dutch Research School SIKS organizes a Dutch/Belgian Conference on Enterprise Information Systems (EIS). The purpose of EIS is to bring together Dutch/Belgian researchers interested in the advances and business applications of information systems - a broad field, including topics such as Management Information Systems, E-Business, IS Analysis and Design, Requirements Engineering, Business Innovation, Knowledge Management, Business Process Management, Product Software Development, Coordination and Communication, Collaborative Information Systems, Business/IT Alignment, Enterprise Engineering, Architectures for IKS, and many others.

EIS 2009 is organized by [SIKS](#) (School for Information and Knowledge Systems) in cooperation with [BENAIS](#) (the Benelux Chapter of the Association for Information Systems) and [NAF](#) (Netherlands Architecture Forum) and offers a unique opportunity for research groups from both the Computer Science-side and the Management-side to report research, meet and interact. We also welcome practitioners with an interest in research and innovation.
